

Landgrebe Manufacturing, Inc.

TD 40 – Magnum

Specifications - Will tow a vehicle up to 82" wide

Total Unit Weight: 725lbs.	Tongue Weight: 60 lbs with Hydraulic Brakes
Spare Tire and Wheel : Add 42 lbs	Electric Brakes: 40 lbs less
Total Length: Hydraulic Brakes: 123"	Total Length: Electric Brakes: 125"
Overall Width 108"	Inside Fender: 89"
Outside Ramps: 82"	Distance Between Ramps: 42"
Ramp Width Each: 19"	205 75 R15 LRC Tires: 1820 lbs Capacity Each 50 lbs Air
Total Load Capacity: 3500 lbs Spindle Capacity	Tow Capacity: Electric: 7000 lbs
Tow Capacity: Hydraulic Surge: 7000 lbs	10"x2 ¼" Drum type Brakes Electric or Hydraulic
Electric Brake-Away included	Wired with 4 way flat with Hydraulic Brakes
7 way Bargeman with Electric Brakes	2 5/16" Ball required for both brake systems
19 " top of Ball Hydraulic	18 ½" top of Ball w/electric brakes
6 bolt 5½" Bolt Circle	½ " offset mod wheels 3 ¼ pilot
Caster Action Steering with stabilizer tie rod with Heim Bearings	Ramp loading angle tilted approximately 14 degrees
Main Frame and Tongue 2x2x1/4 tubing	All wiring and plumbing run inside Frame double insulated
4 way flat provided at rear of drivers side of fender for towed vehicle	Paint Colors available on request
Safety chains 5/16 proof coil 30 plus	Safety Cable for Towed Vehicle
Ramp height 10"	Ramp to top of Fender: 19"
Ground to Top of Fender: 29"	Approximate dimension center-line of towed vehicle axle to ball: 91"
